Proceedings held on Thursday, August 8, 2024, commencing at 2:00 p.m., at the Jacksonville Public Library, 303 North Main Street, Multipurpose Room, Jacksonville, Florida, before Elise F. Cashman, FPR, CCR (GA), RPR, a Notary Public in and for the State of Florida at

THE CHAIRWOMAN: Let's get in our seats. Go ahead and call the August meeting of the Development Downtown Review Board to order at 2:00 o'clock.

We're going to start out, since this is -we are in transition of the Board as whole. So, we're going to start out with introductions.

Councilman Miller, can we start with you? COUNCIL MEMBER MILLER: Hi, everybody. Chris Miller At Large Group Five. Glad to stay with you all. As long as you don't vote me off the island, I'll be with you for another year. BOARD MEMBER DAVIS: Ennis Davis, DDRB

BOARD MEMBER MONAHAN: Gary Monahan, still board secretary.

BOARD MEMBER OTT: Linzee Ott, apparently board vice chair and chair or something like that?

BOARD MEMBER BROCKELMAN: Matt Brockelman, board member.

BOARD MEMBER DAWSON: Carl Dawson, board member.

2

APPEARANCES

3 ENNIS DAVIS 4 GARY MONAHAN 5 LINZEE OTT MATT BROCKELMAN 8 GUY PAROLA 10 SUSAN KELLY

MR.PAROLA: Guy Parola, staff. MS. KELLY: Susan Kelly, staff.

MR. TEAL: Jason Teal, Office of General Counsel.

MS. HILL: Ava Hill, DIA staff. THE CHAIRWOMAN: Thank you. And we do have, so I'm told. I don't see him on my screen but we do have board member Fred Jones online today.

So, I'm going to go ahead and remind the public, if you do want to speak to make sure you grab a public comment card and turn that in

And we will go ahead and start on our agenda items. The first one is approval of our July meeting minutes. Anybody have any feedback or can I entertain a motion? BOARD MEMBER BROCKELMAN: Vote for

BOARD MEMBER MONAHAN: Second. THE CHAIRWOMAN: All right. All those in favor of approving the July minutes, say aye. BOARD MEMBERS: Aye.

THE CHAIRWOMAN: All opposed? All right. Show those minutes adopted. Thank you.

We are going to to DDRB 2024-007 the AC Hotel and Parking Deck. Mr. secretary Monahan, if you will get us in the posture.

BOARD MEMBER MONAHAN: Thank you, Madam chair. Move to Item B, 2024-007 AC Hotel Parking Garage Deck Conceptual.

THE CHAIRWOMAN: Thank you so much. I'm going to go ahead and open the public hearing on that and we will go ahead and have a staff report first, if you don't mind?

MS. KELLY: Yes, ma'am. Okay. DDRB application 2024-007 is a conceptual review of the AC Hotel and Parking Deck in Brooklyn. This is located between Oak and Magnolia Streets, along Dora Street. The western -what I'm calling the western portion of Dora, is about .4 acres and then the east is about point .55 acres.

So, the project is for new construction of a six story hotel. The hotel portion would be on that west side of Dora adjacent to the existing Residence Inn Hotel and then there's an associated two story parking structure which is on the east side of Dora.

This is also the site where Liddy's

be subordinate to the surrounding buildings. which are generally, you know, between five to seven feet of existing residential that's in that area.

The masking of the structures as they approach Dora Street, creates more of a human scale environment and it does not overwhelm the public with realm and it does create an architectural transition in bulk and scale.

The parking dark is designed to be compatible with the hotel structure. Landscaping and architectural treatments are used to soften the appearance of the garage green screens and art panels. Those are proposed to effectively and attractively obscure the view of the interior of the garage.

So, staff is recommending conceptual approval of this application subject to what I consider three main conditions.

The first is our typical that they need to meet with staff in order to identify any deviations.

The second -- so, the the development team on this is -- they are from out of town

and I met with them several times and so what they

Machine Shop is and so that would need to be demolished in order to construct the parking.

The developer will complete the sidewalks around both of the properties so that they comply with the code because I know the Board knows, these sidewalks, where existent, are not compliant with the code.

There is a covered vehicular drop off area along Dora Street and per code, the drop off area needs to be separated from the right of way by 25 feet of urban open space.

So, the applicant will likely need a deviation from this unless they change the net portion of the design because it doesn't, based on the footprint, they don't have that 25 feet of space.

Urban open space on the corner of Oak and Dora on the parking garage has been provided and this is an acceptable approach to meet the activation requirement for new parking garages.

Dora Street elevation of the hotel is the primary frontage. The facades do incorporate different shaded wall surfaces with an inviting facade along Dora Street and the parking deck. excuse me, it is designed in size in order to

have provided is what is required for a conceptual. So, what I've included in these two -- condition two, this is basically stuff $% \left(1\right) =\left(1\right) \left(1\right)$ that's required in final anyhow. I just wanted to make sure that it was very clear. So, we need to see shade calculations or shade study floor plans because we wanted to identify those areas with trash and loading. We need to see the dimensions streetscape sections. Oh, and then staff would like to see more detail explaining how the solid portions open Magnolia, the wall surfaces, how are they utilizing enhanced materials, deep reveals or scoring or other textures and then we would like to see transparency calculations for Oak Street.

Staff found that it does look like they're meeting the requirement but we're not quite sure so we wanted to see some calculations for that.

And then the third one would be that all mechanical equipment pertinences and access areas on the roof of the hotel shall be architecturally screened in a manner that is compatible with the design of the hotel.

5

6

8

10

11

23 24

24

And with that, I am happy to take any 2 questions. 3 THE CHAIRWOMAN: Thank you, Ms. Kelly. Board members, do we have any questions for 4 5 staff? Yes, Mr. Brockelman. BOARD MEMBER BROCKELMAN: Thank you, Madam 6 Chair. Ms. Kelly, I think you mentioned that the open urban space at the intersection of Dora and Oak, would satisfy the code's 9 requirement about garage ground floor street 10 11 12 Can you just kind of walk us through that because wouldn't that need to be 50% of the 13 total ground floor's street frontage? 14 15 MS. KELLY: Give me one minute. BOARD MEMBER BROCKELMAN: Yeah. And if 16 17 you're looking at the code, it seemed like the 18 urban open space -- there's obviously the 19 minimum requirement there but I would think that it would still need to be bigger than that 20 21 to satisfy the 50% minimum. 22 MS. KELLY: So, I'm trying to find it now. 23 One of the ways that counts for activation is -- oh, here it is. 24 So, in section -- well, it's Section K of

activated using one of these methods, I would think the urban open space would need to be expanded such that the total urban open space makes up at least 50% of that street frontage but that's just -- I'm not part of the DC. So, it's just a thought as I was reading through

MS. KELLY: Through the Chair, that, I mean, that interpretation, also that totally stands to reason. So, what I would suggest in this case. So, I told you staff findings.

Now, what could happen is, one, they would either need the deviation. So, we've addressed that because the sites are so funky. They're going to need at least one deviation or -yeah, I mean, I think that's -- if that's the board's interpretation then that's completely reasonable and then we just need to figure out how they -- they would need to figure out how they can accomplish that.

BOARD MEMBER BROCKELMAN: I'll come back here in discussion. I just wanted to ask the question to make sure I understood what staff's position was. Thank you, Madam Chair.

THE CHAIRWOMAN: Any other questions for

10 12

the overlay off street parking. Item three requirements for former parking areas, new parking garages.

25

3

4

5

8

10

11

12

13

14

15

16 17

18

19

20

21

22

23

24

So, that 50%, so, you're right about that, must be activated utilizing one of the methods detailed below.

And the second one, the second method detailed is urban open space with a minimum 20 foot depth, 20 foot width and 25 foot height is to be required and that's all the code says.

So, yeah, they do have to double check the measurement and they will need to provide those measurements but no.

BOARD MEMBER BROCKELMAN: I just have one followup?

THE CHAIRWOMAN: Yen.

BOARD MEMBER BROCKELMAN: Thank you, Madam, Chair. I see that and it's just the way that I would read that would mean that the urban open space has a minimum. So, if the frontage was such a number that 50% of that frontage would result in urban open space smaller than that minimum, the minimum would still apply but since it still requires 50% of the total ground floor street frontage to be

staff?

BOARD MEMBER DAVIS: Yes, I have a question and it's not necessarily related to this particular development but it's my understanding that there's other developments that are currently proposed on the surrounding blocks.

One which has already received a conceptual approval, like, a year or so ago.

How do those actually fit in with this development?

The reason I'm asking the question is because once the applicant gets up and does their presentation, I will have some questions about what's happened at ground level.

I kind of want to have some direction on how the staff view the future of what the Dora Street scape is or Oak Street in relation to all of these developments that are planned that we can't see within this presentation at this

MS. KELLY: Sure. And through the Chair. So, in terms of any of the roadway stuff, ${\tt I'm}$ probably going to pass that to Mr. Parola but in terms of the development, you're probably

referring to block nine which did receive an approval. That is -- it's not farther over to the east but it's not, like, adjacent. It's not, like, right in this area; however, that owner, and I'm going from memory so this might not be quite right, but I believe the owner owns the rest of that block minus the three houses.

So, it is anticipated that there would be a development that is upsetting the garage, at least on the northern portion of that block. Since we don't really know what's going to happen with those -- the three houses. So, that would be a thought there.

And then in terms of any, like, streetscape, and like, CIP projects. Dora? Anything with Dora?

BOARD MEMBER DAVIS: I was thinking more in terms of block file. So, they'd actually have the -- everything on the other side of Oak Street, too? On both sides of intersection of Oak and Dora?

They're going to have the old Caitlin Building, Power Building or the trophy shop, which in the past we talked about being the can actually get back to Forest Street on Oak Street. We made a former developer do that.

So, our primary concern at this point is making sure that any developers that come in are giving us enough sidewalk with so we have a pedestrian corridor if not a retail corridor.

I don't know if that 100% answered your question.

We also realize, though, that a lot of these blocks are really small, whether you're going the perpendicular corridors, whether it's Jackson --

BOARD MEMBER ENNIS: I actually like that. It's very unique but go ahead.

MR.PAROLA: What I was saying was we were hoping that a large land owner would give us a -- here's the typical sections that are going to work on these blocks because the blocks are so constrained and the right of ways vary from, like, 35 to 40 feet. So, I would argue maybe staff needs to start looking at those corridors that are perpendicular to Park Street and Oak Street and Chelsea.

BOARD MEMBER ENNIS: Thank you for that answer.

food hall or something with some type of mixed use.

They also own block five which is pretty much a similar concept to block five that they've been out promoting. So, in those rhythms and things, I see retail and stuff got all intermixed in here.

So, I'm just wondering, how do you all see these projects going together in terms of a walkable neighborhood as supposed to just the individual site?

MR. PAROLA: So, I'll take a stab because I've probably dealt with that developer more than anyone.

As you know, we're doing the Park Street road diet. Part of the reason we're doing the Park Street road diet is because that's the retail corridor for the majority of it.

We're not seeing it at Oak Street; right, which is the first street south of Park Street is a back door of any sense. We don't necessarily see it as the primary retail corridor; however, a number of years ago, we did require that Oak Street used to have a cul de sac that they plugged through it so now you

THE CHAIRWOMAN: Any more questions for staff at this time? Okay. Seeing none.

Do we have an applicant presentation? If you don't mind just a reminder to state your name and address for the record.

MR. CHRISTOPHER ALRED: Good afternoon.

My name is Christopher Alred. I'm from

Charlotte, North Carolina. I'm the architect
for the project with RBA Group.

One of the things that we've been working with with Susan on is really to kind of get the elements that we're proposing in the parking structure as well as the hotel structure, not only to, kind of, meet the regulations but the intent of the regulations, as well, as we kind of spoke through them.

We've been very kind of diligent on maintaining the amenity spaces in the street scape sections. One of the items that I think that she mentioned was the drop off area. That is one deviation that we would be requesting in this layout.

Just due to the constraints of the site, what we're trying to use is the unused portion of the property adjacent to the existing hotel.

It's really kind of limiting with access into that parcel, as well as just kind of being a smaller footprint site. So, that is one of the deviations we would request.

One of the things that we tried to do $% \left\{ 1\right\} =\left\{ 1$ through the elevation design is kind of be more particular when it comes to the at-ground level of the pediatrician scale, really kind of changing the mass of the building vertically as opposed to not necessarily just horizontally.

One, we've got to bring the overall scale down of the larger mass of the building but also to kind of bring that down to kind of the scale of the person that's on the street adjacent, keeping materials, brick, masonry and stucco as well as glass and aluminum window frames.

So, it kind of, really kind of keeping it very small material pallet, even though we are changing some of the colors and shadings of the pieces but really just kind of using the architecture, itself, to break up the overall mass of, really, any kind of project that would exist on this site being such a small footprint, kind of linear, it really lends

and some depth into the facade other than just a blank wall on both sides, on both Magnolia and Oak Street.

And what we're proposing here in some of the locations would be an art panel installation. One that would be not permanent but would be -- have the ability to be changed over time, more in the realm of a screen that is on a framework that can be replaced as necessary. It could also kind of be changed with whatever is kind of going on. So, there is that as well being utilized in this facade.

The elevation on the bottom is the rear facade elevation that backs up next to the adjacent parcels. The previous one, the top elevation obviously is, again, the same kind of condition where it's set back from Magnolia Street but it's that zero lot line condition.

One of the other things that I wanted to personally do was really try to structure -try to relate the garage aspect of the parking deck, itself, back to the Liddy's Machine Shop. Some of the elements that were there existing with the vertical -- rectangular columns and then the over, kind of overhead panels. We

18 20

itself to kind of the big box theory of what you can kind of afford to put on that parcel.

So, we really kind of worked to break down those elements, not just vertically and horizontally but through materials, texture, as well as the kind of the scale of the elements

On the proposed parking garage, as well, we really started to translate some of the elements in the hotel itself across the street to kind of tie the two projects together, in each kind of the entry corner. The one on the left of the screen being the major entry to the parking garage as well as the other egress there on the right side, not specifically creating an open urban space on the Magnolia/Dora corner but providing some space to relieve that corner as well.

One of the things that we are doing and I've spoken with Susan regarding was the transparency requirements, but also the requirement to kind of screen any vehicles.

What we're proposing here is a mixture of screening some planters and some green wall effects. Not to fully kind of block off exterior facade but provide some transparency

didn't really kind of mimic that or duplicate similar materiality within the project, itself.

Other than that, I think that's pretty much what we got. I can answer any questions, of course.

THE CHAIRWOMAN: Sure. Board members, questions for Mr. Alred?

BOARD MEMBER DAVIS: Yes, can you explain the AC Hotel's concept as a Marriott brand and what typically takes place on the bottom floors of that particular concept?

MR. ALRED: So, the AC is a modern brand for Marriott, modern in design and style. All of the first level is obviously the check in lobby but there's also an integrated bar element that is a fixture in all ACs with meeting spaces, business spaces, lounge for both breakfast activities as well as the bar is open, I think generally it's open until about ten or eleven o'clock at night. So, it's always kind of active and used in that area.

That's what we're proposing to kind to push up next to Dora Street, is the bar, the areas for the lounge and push all of -- the

that but more mimic it with texture, using some

back of house faces the laundry, the kitchen, food prep areas towards the parking lot adjacent to the existing hotel and leaving all the meeting spaces and the gathering spaces along Dora.

BOARD MEMBER ENNIS: Is that food and beverage concept open to the general public or just hotel guests?

MR. ALRED: The breakfast is a hotel guest item but the bar is open to the public.

THE CHAIRWOMAN: Members, other questions?

I have a couple. I think it is -- I don't see page numbers. I'm
so sorry.

On our elevations, the conceptual deck elevation, we're looking at all of the sides of the garage and I appreciate the descriptions of materiality and how you indicated those.

Could you talk to me about, I think specifically on Dora Street, we've got several gray rectangles represented and I'm not sure if those are painted material, painted stucco, painted brick, painted something else or if those are intended to be open reveals to be able to see into the garage. Could you talk me

exposed concrete, that's more of a stylistic option for the AC and that's along the entrance drop off area.

I think we're showing some with signage on it, just to go to the right of that AC, and then some of the other areas are heavily scored stucco with deeper deals. It is -- what is the base of what are stairs on each end of the project but in general, it's brick Masonry at the first floor.

THE CHAIRWOMAN: Thank you. I think those are all my questions for now.

Mr. Jones, if you are on, I'd like to give you an opportunity. If you have any questions for the applicant while he's up?

BOARD MEMBER JONES: Not at this time and I certainly echo what Mr. Davis said about the corridors and the overall look and feel of the plane of the streets which I think will help reinforce what we want to see from a development standpoint.

THE CHAIRWOMAN: Thank you, Mr. Jones.
Mr. Alred, we may come back to you but we're going to do public comment right now --

BOARD MEMBER DAVIS: One --

through that?

MR. ALRED: At base?
THE CHAIRWOMAN: Yes.

MR. ALRED: Yeah. So, that's the darkened parking garage beyond. That would be the area where the location -- where the planters would be associated in the front at the open areas and then there would be the screen -- to allow the green screen to kind of grow up would happen in that area as well.

It is currently considered as precast with embedded brick Masonry on the facades.

THE CHAIRWOMAN: Okay. Thank you so much. That's helpful.

I also I wanted to just ask a question, it's okay if you don't have an answer right now, to staff kind of also question about surfaces on Oak and Magnolia, if y'all had any thoughts at this point on textures, materiality, that kind of thing. And again, it's okay if you don't.

MR. ALRED: So in general, at the ground level is brick Masonry, whether it's a red brick, a gray brick or a dark black brick.

There are some areas where there are some

THE CHAIRWOMAN: Sorry? All right. $\mbox{Mr. Davis.}$

BOARD MEMBER DAVIS: I know you have a pretty constrained site. So, could you explain the design process of how you ended up with the garage being separated from the hotel structure?

MR. ALRED: Ultimately, it was required parking. They had -- the amount of spaces that would be available on this site would not meet the minimum requirements for Marriott for us to provide. Typically, they are in urban settings of about one per guest room. So, that was the lead constraint.

Second would be the overall height of the project. Currently, the discussions are -we're having regarding construction type.
We're right at limit for kind of opening up that construction site to all construction, whether it be Type 1 to Type 5, any higher than that we're currently showing would be starting to kind of reduce the availability of construction types for this site while we're waiting to maintain the overall room count for the project, one that is required overall for

•

development concern but also with Marriott, there's a minimum number of rooms we can provide or we have to provide. So, that was really kind of what led to the overall desire or the need to kind of find park elsewhere off

BOARD MEMBER DAVIS: Thanks.

MR. ALRED: No problem.

THE CHAIRWOMAN: Thank you so much. We'll move on to public comment. Do we have any public comment cards?

MS. WILSON: Yes, we do. We have Nancy Powell. Please state your name and address for the record.

BOARD MEMBER MONAHAN: Madam chair, if we had ex-parte communications, would now be an appropriate time to disclose this?

THE CHAIRWOMAN: Let's go ahead and do public comment and then we'll come -- I'll get those right after.

NANCY POWELL: Hi, Nancy Powell. I am at 1848 Chalon Avenue, Jacksonville, Florida, I am the executive director of scenic Jacksonville and I did send this letter to each of you. You can mention it in your ex-parte

should be treated as such in the planning and design. You know, Forest Street and Riverside Avenue are not pedestrian friendly but this interior part with Park Street coming, with road diet is the area where pedestrians can be in a lively environment if it develops that wav.

One of the concerns we have and I went down there, and you know, kind of walked the neighborhood a little bit, you know, but Magnolia Street has become a service street; right? It's the back of 220 Riverside, the Residence Inn has a block, you know, that's not active, either. There's the retention pond across the street. So, that's just a concern and it's going to be added to here if this comes, you know, the way it's presented.

You know, we feel like that the stand alone two story parking garage is a miss. It's going to create more, kind of, inactive blocks. We had the same question about activity, you know, 50% activity and this little open space in the corner just is going to be -- it just doesn't feel meaningful. We feel like a vertical, a more vertical mixed use building.

26 28

but I'm going to read it for the benefit of everybody here and I just want to, you know, first of all thank you guys for the work that you do. I know it's volunteer and it's a lot of review time and your time today and what you're doing here is going to define the Brooklyn neighborhood for the next 50 years. It's an important job and we really hope you can, you know, think through. I think I heard some of the bigger questions, you know, what's around this? How are these streets developing? How do people experience the neighborhood from a physical standpoint, from a safety standpoint and so it's really important work.

Our design committee looked at this process and we, you know, overall we want to see Brooklyn develop into a pedestrian friendly, distinctive urban neighborhood in contrast to the more suburban style developments that have come to fruition there.

You have -- it look likes we have about, you know, maybe half Brooklyn left. There's a lot of open space. There's developments coming. That's good news but Brooklyn is an urban or should be an urban neighborhood and

You know, this is kind of taking up two places where it really can be just one, if you can take down the Liddy's Machine Shop, which is really unfortunate just to put in a two story parking garage, we feel that's a lost opportunity.

The ground floor on -- we gave you some suggestions --

MS. HILL: Excuse me. Your time is up. NANCY POWELL: -- the ground floor across from the bar at the hotel should be activated and/or at the corner. Thank you.

THE CHAIRWOMAN: Thank you Ms. Powell. Ms. Hill, any others?

> ${\tt MS.\ HILL:}$ That is it for this item. THE CHAIRWOMAN: None online?

MS. HILL: No.

THE CHAIRWOMAN: Thank you. Okay. All right.

At this time, before I close the public hearing, I'll go ahead and ask board members if you do have ex-parte communication, if you'll declare that now? Mr. Davis, we'll start at your end of the table.

BOARD MEMBER ENNIS: Ms. Powell sent the

1 email. Yes, that's it. BOARD MEMBER MONAHAN: Also received 2 3 Ms. Powell's email on Tuesday the 6th. THE CHAIRWOMAN: Any addition to that 4 5 email? BOARD MEMBER BROCKELMAN: Same email. 6 BOARD MEMBER DAWSON: Same email. THE CHAIRWOMAN: Likewise. Okay. Great. With that, I will close the public hearing on 9 10 this item. 11 We already had a motion to move the item 12 originally. Does anybody -- did we have a second? I don't even remember. 13 BOARD MEMBER BROCKELMAN: I'll second. 14 15 THE CHAIRWOMAN: Thank you, 16 Mr. Brockelman. 17 Okay. Board Members, I am going to 18 start -- I'll start with Mr. Dawson if we -- if 19 you have any comments to offer? BOARD MEMBER DAWSON: I also went out and 20 21 looked at the property and if you look at it 22 right now it looks like a bomb hit it. But 23 with what Mr. Davis said, with the development proposed and what could come out there, I think 24 I'd like to have a better idea of what the 25

their plan for the property. BOARD MEMBER DAWSON: Thank you. THE CHAIRWOMAN: Mr. Brockelman? BOARD MEMBER BROCKELMAN: Thank you, Madam Chair. I don't really have too much feedback on the design, test. I think it's pretty good. AC Hotels is a good product. I've stayed there a lot when I travel for work. I do just want to circle back. Ms. Pollack, good to see you. Early on in the meeting we talked a little bit about requirements for parking garages and this isn't going to lead to a condition because I think it's one of those things that once AC takes a look, it will just either -- it'll just be an interpretation of the code and we'll all go from there but it was about the corner of Dora and Oak Street, there's a small urban, open space there and in the code for parking garages there's a stipulation that at least 50% of new garages of the total ground floor street frontage not including entrances to the garage.

32

one of those methods.

must be activated using one of a couple of

different methods and the urban open space is

future looks like for that piece of property and around that property.

Susan, through the Chair, is there a way we can get a map that shows what we think is going to happen and then what Ms. Powell said, is Magnolia going to be a service road or what are we going to do with that?

MS. KELLY: Through the Chair, Mr. Dawson. So, it's been awhile but I've seen, like, an ownership map. I don't know if we actually have it, like, available but there's not a map, a master site plan in terms of what I would call a master site plan or like a multiphase and I don't know their timelines. I know they want block nine. So, they wanted Park Street -- to finish up the improvements on Park Street and then they wanted to move forward with their block nine, which came through conceptual last year, I guess.

Other than that, I mean, they do want to move forward with things but I haven't had any conversations with them and I don't know if anybody in our office has in quite some time and Mr. Parola may have more details on specific conversations and where they are with

I feel like the intent of that is pretty clear. The urban open space is one way or may be the only way, if you get to that 50% of the total ground floor street frontage, then that's acceptable but it just seems to me that if we are basing the urban open space requirement off a minimum, that the applicant means this corner, that just doesn't seem like the intent of what the code will be because the whole point of the 50% threshold is to prevent parking garages from taking up entire city blocks without any real meaningful pedestrian engagement.

So, I don't think just putting a corner urban open space will be the intent there but again, that's just as I was reading it, that's something I thought of and maybe I just need you to look at before final approval.

Other than that, the design to me looks good. So, well done there.

THE CHAIRWOMAN: Mr. Monahan?

BOARD MEMBER MONAHAN: Thank you, Madam Chair. As far as the design goes, I concur with Mr. Brockelman. I think it's great and will add, you know, another gym in a growing

THE CHAIRWOMAN: Mr. Davis? BOARD MEMBER ENNIS: I concur with Mr. Brockelman on the open space requirement for the garage.

I don't have much to say on this particular project. It just, to me, it really expresses the need that perhaps we do need some type of master plan or whatever we want to call it, for us to actually see how these developments next to each other are impacted and what the overall landscape or what Brooklyn will be because I can just based off what I know so far, Magnolia Street is basically a secondary street at this point, just the way the development has been approved. With this garage, it really just cement sat.

I can see the same thing happening on Oak Street depending on how it fits in with other developments but knowing what those other developments are, I also see Dora possibly being a secondary mixed use street in the middle of Brooklyn and that other developer is review for the Magnolia Street surface especially, I like the design of the Oak Street parking garage elevation. I think the panels are clever. I did just want to note for staff if the intent is to maybe have those interchangeable or switch out the art or features at some point. I know there's a placeholder for Brooklyn, historic neighborhood, I don't know if that will trigger anything as far as signage.

If it's an artistic function, I get that. That's lovely. I just wanted to note that because I don't know what that would mean for us but on, specifically, on the Magnolia Street side, I would really encourage you instead of one art panel, some kind of artistic feature across the whole length of that side that will draw attention to that side of the parking garage because if I'm a small female walking alone at night, I want eyes on that street, feet on the street are great but also since there's largely a service function opposite this side of the street right now, I want there to be a reason for people to be looking across the street while I'm walking there at night.

36

actively marketing their sites. They have about mid 2025 ground breaking block nine and then a, like, fall of '26, groundbreaking for block nine which is across the street.

So, and that was my basic comments but I have no comments on this particular project because it's just hard to gauge outside of having a better understanding of what's taking place on the grander scale of this corridor.

THE CHAIRWOMAN: Thank you, Mr. Davis. Mr. Jones?

BOARD MEMBER JONES: No comments on the design and certainly echo those articulated by Board Member Brockelman and Davis, in particular, on just the context of the streets and what's happening.

THE CHAIRWOMAN: Okay. I had a couple of thoughts that I wanted to share. Mr. Alred, I can't see you because you're behind the podium. It's okay. You don't have to get up. It just feels weird to talk to a podium.

I did at -- from a user experience perspective, when I travel alone, I am very aware of my surroundings and I would like to encourage y'all that as we approach final

So, I would consider some kind of -- even if it's some kind of cool paint swirls and then lighting, as well. Instead of concentrating our art and our lighting right here on this one panel, I would love to see that spread across the whole side of that elevation if we could. That would feel a lot safer from a pedestrian standpoint in my opinion.

I also, from a kind of user pedestrian thought process, we've got Unity Plaza is across and it is a nice focal point and there have been events there. The dumpster is going to be, as it's located on the site plan right now, will be directly across from, and like, in people's pictures from Unity Plaza, so, I'd really like to consider some pleasant screening for that dumpster if that's where that will

And yeah, just -- and that's a -- I think a question also, the urban open space, I would echo that comment and also from a safety perspective it does and I know these are place holder designs. So, I very much acknowledge that this is not necessarily what we're going with but also that when we are designing that

space that there are maybe tall landscaping 2 mixed with some shorter features, ending walls 3 and just really be kind of cognitive of how open that urban open space can feel if we 4 5 design it. So, those are my thoughts for now. Board members, anything else to add before 6 we move? BOARD MEMBER DAVIS: Just one point of 9 clarification. That area you call the dumpster, I assume that was a stairwell, so, I 10 11 wanted to get clarification on it or from the 12 applicant, I guess. This little building space facing Magnolia 13 Street, is that a stairwell --14 15 MR. ALRED: Yes, that's a stairwell. THE CHAIRWOMAN: I read that wrong and I 16 17 apologize. Thank you for clarifying. Thank you, Mr. Davis. Okay. Any other comments? 18 All right. 19 At this time all those in favor of DDRB 20 21 2024-007, signal by saying aye. 22 BOARD MEMBERS: Ave. 23 THE CHAIRWOMAN: Conceptual approval with 24 staff recommendations, say aye. BOARD MEMBERS: Aye. 25

service formally. I have a resolution here. I should probably read this? Okay.

Okay. Resolution, DDRB 2024-0801 resolution of the Downtown Development Review Board in recognition and appreciation of Gary Monahan for his dedication and service on the DDRB and his dedication and service to downtown providing for an effective date.

Whereas Mr. Monahan was appointed to DDRB in 2022, during his tenure, Mr. Monahan held the position of secretary in 2023 and 2024.

Mr. Monahan provided DDRB with a thoughtful perspective on the pedestrian experience of downtown development and redevelopment. He has been a champion for the activation of downtown an advocate for the continued growth and the development of downtown

Now, therefore, be it resolved by the DDRB, all of us we recognize and extend our appreciation for your dedication and service to the downtown review board and to downtown Jacksonville and it is signed today. So, it is effective today. So, thank you for your service, Gary.

38 40

THE CHAIRWOMAN: Any opposed? All right. Congratulations. Conceptual approval is approved on 2024-007.

Okay. Now, we will move on to our new business which is very exciting.

So, the nominating committee, we're talking about officer elections. I'm so sorry.

The nominating committee met a couple of weeks ago and a slate was discussed and presented. So, I would like to announce that slate now and then that slate will then be discussed and perhaps acted upon at the September meeting.

So, as a result of the nominating committee's meeting, a slate was presented Vice Chair Joanna Brewing and Secretary Carl Dawson. So, we will pick that back up at the September meeting.

And last but not least, we had a miscalculation in our approvals for the last meeting and so we did not need to say goodbye to Mr. Monahan so quickly.

Mr. Monahan, though, is transitioning off

BOARD MEMBER MONOHAN: Thank you, Madam Chair. To the staff, thank you. It's been pleasure serving in this capacity. I wish the board well as you move forward. Downtown is certainly in great hands with each of you and excited to continue to follow your work.

THE CHAIRWOMAN: Great Thank you, Gary. So, this resolution does need a motion and a vote. So, if we could entertain those?

BOARD MEMBER BROCKELMAN: So moved.

THE CHAIRWOMAN: I'll second.

BOARD MEMBER DAVIS: Second.

THE CHAIRWOMAN: Okav. I'll let Mr. Davis second that one. All those in favor of approving Resolution 2024-0801 say aye.

BOARD MEMBERS: Ave.

THE CHAIRWOMAN: Any opposed? Great. Resolution is official and thank you so much for your service, Gary.

All right. Thank you so much. I will adjourn the meeting at 2:46 p.m.

MS. HILL: No public comments?

THE CHAIRWOMAN: I knew I couldn't get out of here without making a mistake on my first meeting.

the board and so we wanted to acknowledge his

Are there any public comments in general, Ms. Hill? MS. HILL: Yes, we have Lauren Woods. Please state your name and address for the record. THE CHAIRWOMAN: Thank you, Ms. Woods and I'm so sorry about that. MS. WOODS: My name is Lorrin, capital L-O-R-R-I-N. Cassandra, capital C-A-S-S-A-N-D-R-A. Last name Woods, W-O-O-D-S. I reside at 600 North Washington Street here in downtown Jacksonville. ZIP Code is 32202. My name is a good name and is of regality. My name is a great name. My father is Marzette Woods, Jr. Capital M-A-R-Z-E-T-T-E Woods, W-O-O-D-S and his spouse Henrietta Dianne is my mother. Those are my natural parents. in general about downtown Jacksonville. First

parents.

I'm here today to talk about a few things in general about downtown Jacksonville. First of all, I'd like to say I'm a frequent customer of Harvey's and I really love the brand. I purchase three cases of soda for \$13 which is a bargain at 30 cents per can of pop. I drink pop for a couple of days. You get a case of,

I think it's frightening. I'm upset and it's frightening to think that there are persons with access to even think that there are persons with access to beverage processing and packaging that taint consumer products like soda pop and this is now making it to the general public, but you have to have a certain number of observations. This is frightening. I felt ill. I refused to drink another can but I refuse to alleviate myself of these cans and this is something that the subculture --

MS. HILL: Thank you. Your time is up.
MS. WOODS: And this is important.
THE CHAIRWOMAN: Thank you so much, Ms.

MS. WOODS: That effects investment and desire to be downtown. The other thing, that Baywalk, if you don't get rid of that apartment building, it appears visually like a tenement slum and you need to get rid of the apartment. You have no need for the apartment over Baywalk --

MS. HILL: Thank you. Your time is up.
MS. WOODS: And it's got to go.

THE CHAIRWOMAN: All right. Thank you,

12 pack -- anybody buy Chek Cola. I buy Chek. I drink several cans. Lo and behold, I picked up a can and I noted I felt ill. I felt an ailment after drinking this soda.

Now mind you, I drank several cans out of the same case. I noticed something. I began to pull cans of pop out of my case in my own apartment. These cans have markings on them. This one has a fuchsia dot and this one has a purple dot. Other cans have had notches. It's like a game of dots and dashes. What's in the cans? Frightening.

This was a purchased case. This was a gift case. Mind you, I drink several cans from both cases before feeling any kind of ailment and before noting anything this. Something's going on in downtown Jacksonville.

Now, this -- so, this one was a gift. Again, I drink pops for several days and I pulled out cans with similar markings.

I contend that there's a subculture that has developed that is negative on the quality of life here in downtown and it should be a concern to development agency and what's going on with the tampers of the pops, soda pops.

Ms. Woods. I apologize for omitting public comment. I will not do so again. I will now adjourn the meeting at 2:50 p.m.

(Whereupon, the meeting was concluded at approximately 2:50 p.m.)
